**Re: Technical Submission:**

Application Name: Aspen South Lateral - Site Plan Amendment #15 - Oil and Gas Midstream Permit Application  
Application Number: DA-2201-09  
Case Numbers: 2019-6048-10

Dear Ms. Floyd:

Thank you for your submission for technical corrections. We have reviewed your submittal and there are no further items remaining, only outstanding items associated with the Notice to Proceed, so an additional resubmittal will not be required.

You may now submit full Mylar sets to be recorded with Adams County. This must be finalized prior to issuance of the Notice to Proceed.

- When preparing Mylars, please refer to the attached Mylar Checklist. Include a notated and signed copy of this checklist with the Mylars. Pay close attention to the size requirements and submit one additional Arch-D size Site Plan cover sheet. Ensure all signatures and notary stamps are in black ink and are not smeared- plans with ink that is too light or smeared to remain legible when scanned are often rejected by the County recorders' offices.
- Also, please include flattened PDF files and mylar checklist. These can be sent via email in an effort to reduce waste.

Thank you for submitting the renewed FieldWide Plans for Midstream Operations. These have been forwarded to the relevant departments for thorough review. For this application, we will use the following applicable field-wide plans that have been approved and accepted by the City for this amendment and application are as follows:

1. Crestone Peak Resources Midstream – Field-Wide - Air Quality Plan (Version 2022.02.04)
2. Crestone Peak Resources Midstream – Field-Wide - Emergency Response Plan (Version 2022.02.04)
3. Crestone Peak Resources Midstream – Field-Wide - Integrity Management Plan (Version 2022.02.04)
4. Crestone Peak Resources Midstream – Field-Wide - PHA-HAZOP Watkins Analysis (Version 2022.02.04)
5. Crestone Peak Resources Midstream – Field-Wide - Road Maintenance Agreement (Version 2022.02.04)
6. Crestone Peak Resources Midstream – Field-Wide - Weed Control Plan (Version 2021.03.17)

If you have any comments or concerns, please contact Jeffrey Moore directly at [jmoore@auroragov.org](mailto:jmoore@auroragov.org) or at 303-739-7676.

Sincerely,

Maria Alvarez, MURP
