Re: Technical Submission Review – Antelope Creek (Kings Point North) – Site Plan and Plat
Application Number: DA-1609-23
Case Numbers: 2022-6050-00, 2022-3081-00

Dear Mr. Bauer:

Thank you for your technical submission, which we started to process on September 5, 2024. We have reviewed your plans and attached our comments along with this cover letter. The first section of our review highlights our major comments. The following sections contain more specific comments, including those received from other city departments and community members.

Since some comments remain, you will need to make another technical submission. Note that all our comments are numbered. When you resubmit, include a cover letter specifically responding to each item. The Planning Department reserves the right to reject any resubmissions that fail to address these items. If you have made any other changes to your documents other than those requested, be sure to also specifically list them in your letter.

As always, if you have any comments or concerns, please let me know. I may be reached at (303) 739-7132 or egates@auroragov.org.

Sincerely,

Erik Gates

- 5A. (Advisory Comment) The City of Aurora has revised the subdivision plat checklist (2024) to include new covenants amongst other changes and this checklist must now be followed.
- 5B. (Advisory Comment) Send in the updated Title Commitment to be dated within 30 calendar days of the plat approval date (This Commitment should be submitted at the time of your final submittal of the electronic Plat for recording.) per COA 2024 Subdivision Plat Checklist Item 19.b.
- 5C. (Advisory Comment) Provide a statement of authority for the person signing on behalf of the entity named in the title commitment.
- 5D. (Advisory Comment) Send in the Certificate of Taxes Due to show they are paid in full up to and through the plat approval date of recording. Obtained from the County Treasurer's office (This Certificate of Taxes should be submitted no later than your second submittal of the plat.) per COA 2024 Subdivision Plat Checklist Item #19.a.
- 5E. (Advisory Comment) Be advised - sometimes the margins or scale factor may not match the County or City standards as stated in the Subdivision Plat Checklist. If any of these factors are misaligned or the scale does not match the drawing information, then this may cause the plat to be sent back and corrected thus adding time to your submittal. And in turn, you may need to update the Title Commitment to bring it within the 30-day time limit. Please check these items before sending the plat in for recording.
- 5F. Send in a closure report for the plat exterior boundary per COA 2024 Subdivision Plat Checklist Item #19.d.
- 5G. Send in the State Monument Records for the aliquot corners used in the plat per COA 2024 Subdivision Plat Checklist Item #19.e.
- 5H. (Advisory Comment): All missing reception numbers will need to be inserted prior to plat acceptance. (Typical)
- 5I. See the full red line comments on the plat and site plan.
