Application Number: DA-2062-62
Case Numbers: 2024-3034-00

Dear Mr. Ferreira:

Thank you for your initial submission, which we started to process on June 24, 2024. We have reviewed your plans and attached our comments along with this cover letter. The first section of our review highlights our major comments. The following sections contain more specific comments, including those received from other city departments and referral agencies.

Since several important issues remain, you will need to make another submission. Please revise your previous work and send us a new submission on or before August 16, 2024.

Note that all our comments are numbered. When you resubmit, include a cover letter specifically responding to each item. The Planning Department reserves the right to reject any resubmissions that fail to address these items. If you have made any other changes to your documents other than those requested, be sure to also specifically list them in your letter.

As always, if you have any comments or concerns, please let me know. I may be reached at 303-739-7261.

Sincerely,

Debbie Bickmire, Senior Planner

Re: The Aurora Highlands Subdivision Filing No. 34, Case # DA-2062-62

Public Service Company of Colorado's (PSCo) Right of Way & Permits Referral Desk has reviewed the plat for **The Aurora Highlands F34** and requests that the following that the following language or plat note is placed on the preliminary and final plats for the subdivision:

Permanent structures, improvements, objects, buildings, wells, water meters and other objects that may interfere with the utility facilities or use thereof (Interfering Objects) shall not be permitted within said utility easements and the utility providers, as grantees, may remove any Interfering Objects at no cost to such grantees, including, without limitation, vegetation. Public Service Company of Colorado (PSCo) and its successors reserve the right to require additional easements and to require the property owner to grant PSCo an easement on its standard form.

The property owner/developer/contractor must complete the application process for any new natural gas or electric service via [xcelenergy.com/InstallAndConnect](https://www.xcelenergy.com/InstallAndConnect). It is then the responsibility of the developer to contact the Designer assigned to the project for approval of design details.

If additional easements need to be acquired by separate PSCo document, a Right-of-Way Agent will need to be contacted by the Designer.

As a safety precaution, PSCo would like to remind the developer to contact Colorado 811 for utility locates prior to construction.
