**Re: Technical Submission Review – Skydance Infrastructure Site Plan No 1 - Site Plan and Plat**

**Application Number:** DA-2283-01

**Case Numbers:** 2022-3083-00; 2022 -6052-00

Dear Ted Laudick:

Thank you for your technical submission, which we started to process on February 18, 2025. We have reviewed your plans and attached our comments along with this cover letter. The first section of our review highlights our major comments. The following sections contain more specific comments, including those received from other city departments and community members.

Since several important issues remain with both Land Development Services and Traffic, you will need to make another submission on or before Friday, April 4, 2025. The application will continue to resubmit till there are no further outstanding comments. Note that all our comments are numbered. When you resubmit, include a cover letter specifically responding to each item. The Planning Department reserves the right to reject any resubmissions that fail to address these items. If you have made any other changes to your documents other than those requested, be sure to also specifically list them in your letter.

Note: Projects that have gone one year without a submission will be considered inactive and require a 25% restart fee to be reactivated. After 18 months of inactivity, projects that are not reactivated will be closed and retired.

As always, if you have any comments or concerns, please let me know. I may be reached at 303.739.7259 or [amuca@auroragov.org](mailto:amuca@auroragov.org).

Sincerely,

Ariana Muca, PLA  
Planner II
