1A. When preparing the final mylars for the Master Plan, please prepare a Cover Sheet that includes the sheet numbers, an amendment block, a vicinity map, contacts, notes, and signature blocks. Please include all Master Plan tabs, as well as the full Public Improvements Plan (including narratives, cross sections, and exhibits), in the final mylars. Approximately four pages can fit on each mylar sheet. Once you have prepared a draft of the mylars, please send the PDF to your Case Manager to review them prior to printing and submitting final mylars.

1B. In addition to the mylars, please also send a final copy of each Master Plan tab and engineering document as a separate PDF to your Case Manager for records purposes.

1C. When preparing final mylars, please refer to the attached Mylar Checklist for sheet sizes.
