**RE: Elevate at Aurora- Site Plan Amendment
Case Number: 2023-6005-01**

Sarah,

Thank you for your review comments for Elevate at Aurora that we received on December 10th, 2024. We have reviewed all the comments and responded below.

1. Planning

1A. Remove the date where requested from all sheets.

Date has been removed where requested.

1B. Make the delta smaller where requested to follow a similar format as Amendment #1.

The delta has been updated to follow the same format as Amendment #1.

1C. On Sheet 8, only bubble the plants that are changing from the original Site Plan instead of bubbling the entire Plant Schedule so the changes can be easily reviewed.

The sheet has been updated to only have the updated plant types bubbled.

1D. Sheet 37C was not included in the approved Site Plan, so it should be removed from the amendment

Sheet 37C has been removed from document.
