Re: Harmony Filing 13 Replat– Letter of Introduction

Ms. Wile:

Westwood would like to introduce the Harmony Filing 13 amendment 1 project.

Harmony Filing 13 was recorded under reception No. E1067744. Block 1 Lots 1-6 of this plat had a minor error which prevented the proposed product from being built on the lots. This amendment adjusts the lot widths internal to the block with no impact to ROW, easements, tracts, or any other platted features. It also has no impact on the site plan or CDs for this project.

Please contact me if you have any questions or require additional information.

Sincerely,

A handwritten signature in blue ink that reads "Brian P. Wilson".

Brian P Wilson, P.E.  
Senior Project Manager  
Westwood Professional Services, Inc.
