Dear Mr. Hillen:

Thank you for your third submission, which we processed on April 25, 2022. We reviewed it and attached our comments along with this cover letter. The review letter contains comments from all city departments.

The application is tentatively scheduled to go to a virtual Planning Commission public hearing on June 8, 2022 assuming notice requirements are met. Additional details regarding notice requirements will be sent the week of May 23, 2022. Following the Planning Commission public hearing, a technical corrections submittal will be required to address all remaining comments outlined in this review letter.

Note that all our comments are numbered. When you resubmit, include a cover letter specifically responding to each item. The Planning Department reserves the right to reject any resubmissions that fail to address these items. If you have made any other changes to your documents other than those requested, be sure to also specifically list them in your letter.

### **1. Planning** (Sarah Wile / 303-739-7857 / [swile@auroragov.org](mailto:swile@auroragov.org) / Comments in bright teal)

1A. Minor changes are needed to the Letter of Introduction, as well as the Data Block (Sheet 1) and the Lot Type Plan (Sheet 5) prior to Planning Commission. Please send a revised Letter of Introduction and Site Plan to your Case Manager by May 23<sup>rd</sup> in order to remain on the agenda for the June 8<sup>th</sup> meeting. Please note that other comments do not need to be addressed by this date; they can be resolved through technical reviews.

1B. Please provide a letter from the HUDRB approving the variance for lots fronting on Picadilly Road by May 23<sup>rd</sup> in order to remain on the agenda for the June 8<sup>th</sup> meeting. If this was already provided, please forward to your Case Manager and disregard this comment.

1C. The city has developed [CAD Data Submittal Standards](#) for internal and external use to streamline the process of importing AutoCAD information into the City's Enterprise GIS. A digital submission meeting the CAD Data Submittal Standards is required before final mylars can be routed for signatures or recorded for all applications.

### **2. Landscaping** (Kelly Bish / 303-739-7189 / [kbish@auroragov.org](mailto:kbish@auroragov.org) / Comments in bright teal)

2A. Please revise the order of some of the sheets per redline comments on Sheets 18-32.

2B. On the Residential Landscape by Product Type Plan (Sheet 32), there are A-M lot types. Please identify which of the four lot types are A-M by indicating the letter in association with the lot landscape typicals being provided.

3B. Provide a contour label where requested on Sheet 12.

3C. Verify that water will drain away from the low point called out on Sheet 12.

5B. The 9.96 acres noted on Sheet 16 is for the entire neighborhood park space. Update it to reflect the specific acreage being credited with Pond C2.
