**Re: Letter of Introduction  
Fine Point Business Park Building 6 - Site Plan and Plat**

Dear Mr. Rabbaa,

Please accept this letter as our introduction to the City of Aurora of the proposed Site Plan and Plat within the Fine Point Business Park. We have attached hereto a conceptual site plan showing the location of the proposed building and associated public and private infrastructure. The project will generally be known as Fine Point Business Park – Building 6 and is being developed by Ambrose Property Group.

To provide some background, Ambrose Property Group specializes in real estate solutions for e-commerce and industrial needs by focusing on warehouse and distribution facilities. Their portfolio spans some of the top industrial markets offering bulk regional distribution centers and other key industrial facilities. Currently, Ambrose Property Group is developing properties in the Denver Metro area including a nearby project at E 64<sup>th</sup> Avenue and Powhaton Road and the planned facility in Aurora will join their continually growing network of Class A distribution space in the US. Ambrose Property Group owns and operates its real estate and takes great pride in the investment and long-term commitment made in the community.

The Fine Point Business Park – Building 6 project consists of a portion of one parcel within the City of Aurora (Parcel ID 0181900000018). The site is currently vacant agricultural land totaling ± 14.10 acres (as indicated on the plat for Fine Point Business Park Subdivision Filing No. 3), located directly southeast of the termination of E. 58<sup>th</sup> Avenue, adjacent to Powhaton Road. The proposed Site Plan complies with the Fine Point Business Park FDP amendment that is currently under review. The Site Plan proposes industrial uses in FDP amendment planning area PA-2.

The site will be fully served by Aurora Water with potable water and sanitary sewer with the addition of infrastructure proposed by the project. Stormwater treatment will be constructed with the project. Public access roadways exist (Powhaton Road) and will be constructed (East 58<sup>th</sup> Avenue).

We appreciate your attention to this project and look forward to meeting with you and working with your staff to fully entitle and build this project in the City of Aurora. Should you have any questions please contact me at (303) 974-3625.

Best Regards,
