Re: Minor Amendment - **6290 S. Main St.**

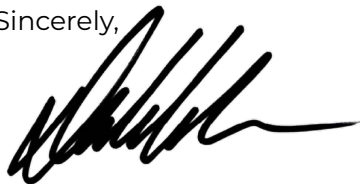

Dear Planning and Development Services Staff,

We are submitting a Minor Amendment Application as required for our project located at **6290 S. Main St.** Our contractor, Colorado Lighting Inc., has already applied for the building permit for this project.

The scope of work for this amendment includes installation of two electric vehicle (EV) charging stations at the locations shown in the amended site plans. The EV charging stations will be located within a raised landscape area/island adjacent to an existing standard parking stall. Signage and pavement marking will be installed at the parking stall to identify its use for EV charging. Power for the EV charging stations will be via directionally-bored underground conduit and an existing electrical panel at **6290 S. Main St.**

These EV charging stations are being installed in cooperation with our site partner, M&J Wilkow Ltd., and will serve the patrons of Southlands Town Center.

Sincerely,

Derek T. Webb  
Engineering Project Manager (Denver)
