

Fine Point Business Park Master Plan Amendment

E.56th Avenue & N. Jackson Gap Way

Tab #8: Standard Master Plan Notes

1st Submittal: February 24, 2023

1. Traffic Signal Costs. Owner and/or developers are responsible for 100 percent of signal costs for interior intersections. The cost of signals at perimeter intersections will be prorated per City Code, Section 126-38. Signal locations and cost sharing will be determined at Contextual Site Plan.

2. Street Lights. Streetlights must be constructed along all public streets as required by City Code Section 126-236 and shall meet City Of Aurora standards.

3. Archaeological finds. The owner, developer and/or contractors will notify the City if archaeological artifacts are uncovered during construction.

4. Parks. Neighborhood Park sites shall not exceed 3 percent maximum finished grades.

5. Residential Density Reductions. The developer has the right to build at a lower residential density in any map area provided the City has determined that the use is permitted and compatible with surrounding land uses. A finding of compatibility will be determined at the time of CSP review. This reduction shall be considered an administrative Master Plan amendment.

6. Master Drainage Plan. No subdivision shall be approved prior to the City's approval of the Master Drainage Plan. In the event of any plan conflicts with the Master Plan amendment, including, but not limited to, the size, location, and regional detention ponds and/or drainage way locations, cross sections and widths, the Master Drainage Plan, as approved by the City, shall govern. Drainage ponds drop structures and other facilities are subject to CSP review.

7. 404 Permit. The developer is responsible to comply with any requirements of the Army Corps of Engineers (if any) with regards to 404 permitting and wetlands mitigation.

8. Emergency Access. The developer shall provide two points of paved emergency access and a looped water supply to each phase of the development as

approved by the City. The developer shall provide emergency crossings that meet all city standards. The developer/applicant is required to provide all offsite roadways necessary to provide the two distinct points of access to the overall site.

9. The Master Utility Study, Master Drainage Study and Master Transportation Study are incorporated as a part of the Master Plan Amendment. Final approval of these documents is required before acceptance of an application for the first CSP within the project.

10. Landscaping Standards. Unless otherwise noted herein in a waiver, the landscaping standards outlined in the current Code apply to this Master Plan Amendment. Where the standards outlined in the current code conflict with standards within this Master Plan Amendment, the more restrictive shall apply.

11. Future Amendments. Any future amendments to architecture, landscape architecture and other urban design standards and related drawings must demonstrate an equal or better quality than the approved Master Plan Amendment standards.

12. MP Adjustments. Except for the waivers listed below, this FDP will be interpreted to mean that all standards contained in the Master Plan Amendment will meet or exceed all city code requirements.

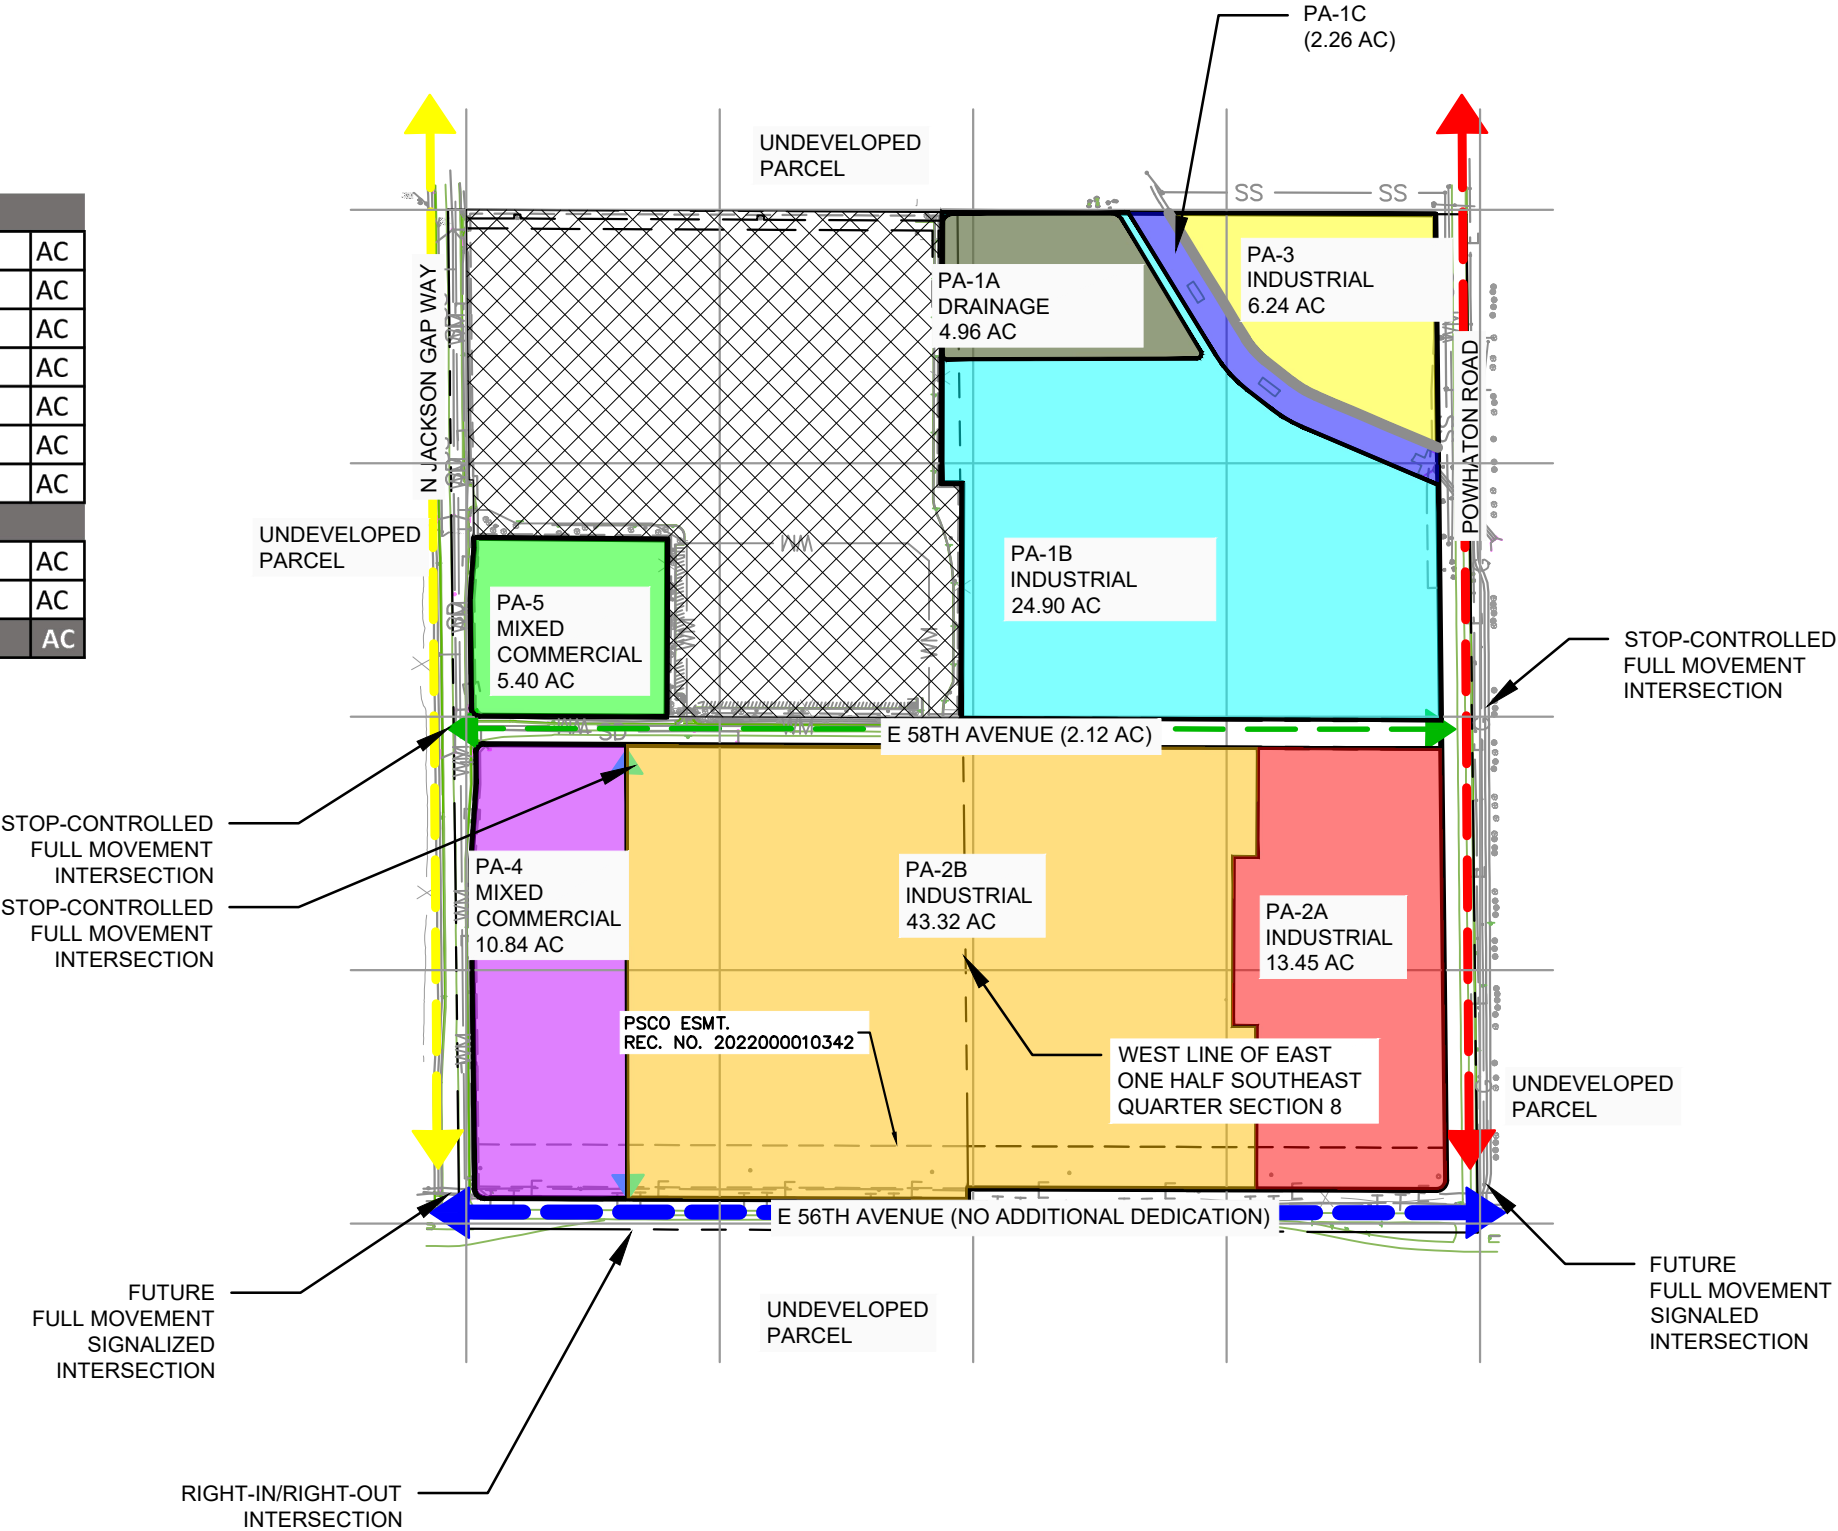

13. Design Standards. A Master Plan amendment as per the requirements of Sections 3.9, 3.12, 3.13 and 3.14 of the Master Plan Manual will be required to be submitted either with the application for the Master Plan or as an amendment to the Master Plan to be submitted with the application for the first CSP in the development.

14. Major arterial medians to be publicly maintained shall be designed and constructed in accordance with PROS Public Median Standards. (These policies are pending completion.)

15. Major arterial medians to be privately maintained shall be designed and constructed in accordance with PROS Private Median Standards. (These policies are pending completion.)
