SECOND SUBMISSION REVIEW

SUMMARY OF KEY COMMENTS FROM ALL DEPARTMENTS

- Make necessary revisions to Letter of Introduction with information from recently approved FW Plans.
- A License Agreement must be completed before Notice to Proceed can be issued. Please reach out to Land Development Review to begin process.
- As a reminder, the City has developed CAD Data Submittal Standards for internal and external use to streamline the process of importing AutoCAD information into the city's Enterprise GIS. Please note that a digital submission meeting the CAD Data Submittal Standards is required before your final Site Plan mylars can be routed for signatures or recorded. Please review the CAD Data Submittal Standards, including templates and required layer file labeling, at <http://tinyurl.com/AuroraCAD>. Email your Case Manager the appropriate Site Plan and Pipeline Easement file before submitting your final Site Plan mylars. Once received, the City's AutoCAD Operator will run an audit report, and your Case Manager will let you know whether the file meets or does not meet the City's CAD Data Submittal Standards. Please email CADGIS@auroragov.org for questions or more detailed instructions.
