**Re: Third Submission Review HWY 470 & Gartrell Rd Chick-Fil-A – Site Plan**  
Application Number: **DA-1726-05**  
Case Numbers: **2023-6053-00**

Dear Mr. Schwartz:

Thank you for your third submission, which we started to process on Thursday, March 21st, 2024. We have reviewed your plans and attached our comments along with this cover letter. The first section of our review highlights our major comments. The following sections contain more specific comments, including those received from other city departments and community members.

Since several important issues remain, you will need to make another submission. Please revise your previous work and send us a new submission on or before Wednesday, April 24, 2024. Note that all our comments are numbered. When you resubmit, include a cover letter specifically responding to each item. The Planning Department reserves the right to reject any resubmissions that fail to address these items. If you have made any other changes to your documents other than those requested, be sure to also specifically list them in your letter.

Your administrative approval date will be rescheduled once all major comments have been resolved. Please remember that all abutter notices for the decision must be sent and the site notices must be posted at least 10 days prior to the approval date. These notifications are your responsibility and the lack of proper notification will cause the approval date to be postponed. It is important that you obtain an updated list of adjacent property owners from the county before the notices are sent out. Take all necessary steps to ensure an accurate list is obtained.

As always, if you have any comments or concerns, please let me know. I may be reached at (303) 739-7220 or [bbravenec@auroragov.org](mailto:bbravenec@auroragov.org).

Sincerely,

A handwritten signature in cursive script that reads "Ben Bravenec".

8D. Is this head aligned in the middle of the turn lane?

8E. Need to show striping for the south part of Gartrell.

8F. This mast arm on the northwest corner should show improvements. Based on Traffic study it should have 2 / 3 section turn arrow signal heads and one 3 section ball signal head.
