Hello Janet,

I'm in the process of completing a Minor Amendment for this project and they requested that we contact you to see if a Drainage Letter is required.

I will enclose the projects plan for your review.

We are installing EV charger equipment in the parking lot of this building.

I hope this helps!

Here is the contact information for the planner who requested the information;

Rodman,

I am sorry I am not familiar with your project, has there been a pre-application meeting and if so, do you have the date of the meeting? Do you have a site plan review in process, if so what is the development application name and DA.
