Dear Grant:

Thank you for your fourth technical submission, which we started to process on February 15, 2024. We have reviewed your plans and attached our comments along with this cover letter. The first section of our review highlights our major comments. The following sections contain more specific comments, including those received from other city departments and community members.

Although there are several comments remaining, you can either choose to resubmit another technical review or work directly with the departments with the remaining comments offline ( I recommend this approach). Please note that the site plan and plat cannot be recorded until all comments have been satisfactorily addressed.

Note that all our comments are numbered. When you resubmit, include a cover letter specifically responding to each item. The Planning Department reserves the right to reject any resubmissions that fail to address these items. If you have made any other changes to your documents other than those requested, be sure to also specifically list them in your letter.

As always, if you have any comments or concerns, please let me know. I may be reached at [stimms@auroragov.org](mailto:stimms@auroragov.org).

Sincerely,

Steve Timms, AICP  
Planning Supervisor
