RE: Windler Filing 4 Connector Road Infrastructure Site Plan Amendment 1 – Letter of introduction

To whom it may concern:

The Windler Connector Road Infrastructure Site Plan – Windler F4 – is being amended to shift the roundabout in the plans from E 53<sup>rd</sup> Ave and N Buchanan St to E53rd Ave and N Biloxi St. The amendment is also revising the intersection of E 54<sup>th</sup> Pl and N Buchanan St from a 4-way intersection to a T intersection, adjusting utilities and utility stubs west of Denali for the adjacent neighborhoods, and vacating ROW associated with the roundabout shift. Per the request of Aurora planning, a vacation related to Windler Filing 2 – Denali Blvd and E 50<sup>th</sup> Ave is also included in this application. This ROW vacation is related to a modified sidewalk width per approved CD plans.

Sincerely,

Brian P. Wilson, P.E.
