Re: Technical Submission Review: Trails at Overland Ranch Community Center & Park Site Plan
Application Number: DA-1692-05
Case Numbers: 2024-4014-00

Dear Mr. Richmond:

Thank you for your technical submission, which we started to process on October 8, 2024. We have reviewed your plans and attached our comments along with this cover letter. The first section of our review highlights our major comments. The following sections contain more specific comments, including those received from other city departments and community members.

Since several issues remain, you will need to make another submission. Please revise your previous work and send us a new submission after you have addressed the comments. Note that all our comments are numbered. When you resubmit, include a cover letter specifically responding to each item. The Planning Department reserves the right to reject any resubmissions that fail to address these items. If you have made any other changes to your documents other than those requested, be sure to also specifically list them in your letter.

As always, if you have any comments or concerns, please let me know. I may be reached at 303.739.7132 or egates@auroragov.org.

Sincerely,

Erik Gates
