

CITY OF AURORA PLANNING

3650 N Salida St. Suite 30 Aurora CO. 80011

Greetings,

This is Gene White with Suburban propane in Lakewood CO.

I am trying to obtain a permit to install a 6 Slot Propane Cage and 6-33.5# propane forklift cylinders to supply the needs for the business.

We will or wanting to install the cage outside against the wall at there location, Customer will install 3-8" pipes filled with concrete 4' deep 4' high and 3' between each post. The cage will be about 28' from the building 50' from any steps and against a concrete wall for protection, about 25' from any property lines.

We will be making deliveries to the outside when propane cylinders are empty.

All I need is for you guys to approve the plans and issue me the permit that is needed to get started.

Thanks

Gene White
