City of Aurora – Planning and Development Services

Re: Letter of Introduction – Minor Amendment - New Life Community Church - Patio and Canopy Project
17690 E Iliff Ave
Aurora, Colorado 80013
Eidos Project No. 21018.2

Dear Planning & Development Services,

This is an introduction letter to explain the scope of work in this amendment for the Patio and Canopy project at New Life Community Church. The scope of work for the project includes the construction of a new outdoor patio and a new detached outdoor canopy structure on the existing site. The construction will take place on the south portion of the existing site near the existing church. The new canopy structure will be a standalone structure and will be completely detached from the existing building. The new patio will be built out of pervious pavers and graded to provide sufficient drainage away from the existing building. Please see the drawings in the updated site plan for additional details.
