No you do not as long as Fire has approved and not required an Addendum for changing the style of the gate.

Thank you and have a great day,

**Subject:** RE: MA first review

Grace,

Fire/ Life Safety (Steve Kirchner) has reviewed the amendment and did not have comments on the new gate style. Attached are the comments for your reference. I have added Steve to this chain as well.

But if there are no issues from Fire/ life Safety, do we need to submit an additional Licence agreement to the one that has already been executed for the gate?

Thanks,

Mike Reilly

**Subject:** RE: MA first review

You would need to speak to Fire Safety since you are only changing the style to get their approval.

Thank you and have a great day,

Grace Gray

**Subject:** RE: MA first review

Hello Grace,

Yes those are the only two gates and we are simply changing the style of gate that was previously shown.

Thanks,

Mike Reilly

Can you please tell me if the 2 gates license in MLA 21-90 are the only 2 gates that needed to be covered in the license peer the Site plan and Civil redlines?

I have included Grace Gray in the response so she can possibly shed some light on this situation of the new(er) gates. She was involved in the original Master License Agreement and has an abundant amount of knowledge in these situation.

**Subject:** FW: MA first review

Hello Maurice,

In looking through the attached comments, you mention that the new gates will need to be covered by a License Agreement. Since there was already a gate proposed at this location, we already have a recorded license agreement for a gate (please see the attached). Please let me know if anything else is required for the license agreement for the proposed Minor Site Plan Amendment.

Thank you,

Todd Lyon, P.E.
