

MINOR AMENDMENT SCOPE OF WORK LETTER
FOR PROPERTY AT 14200 E EXPOSITION AVE

To; City of Aurora Planning & Zoning Department

As part of the application process to receive a minor amendment approval for work at 14200 E Exposition Ave, this is the Letter of Introduction detailing the scope of work that is included.

The purpose of work being completed is close off the fencing and secure the southwest parking lot of the property. To do so, we will be installing metal gates and a few fence panels at the parking lot openings to close off these areas and secure this parking lot area. We will be installing three automatic drive through sliding cantilever gates and 2 man-gates around the southwest parking lot openings in order to fence off this section of the parking lot. We will be tying in the new gates and connecting them to the existing metal fencing that runs along the outside perimeter of this southwest parking lot. Scope of work includes installation of the new gates with like kind and quality to the existing fencing material.

Please let me know if you have any questions or need any further information or details. I appreciate your time and help, thanks.
