Project: FRA – Revere Right of Way Vacation
Subject: Letter of Introduction

Mr. Cammarata,

Following extensive coordination with the University of Colorado – Denver and the Anschutz Medical Campus, Fitzsimons Redevelopment Authority has determined that Revere St as shown on the approved plat (CN-2017-3041) will not align with the planned location of Revere St South of Montview.

Fitzsimons Redevelopment Authority and the Anschutz Medical Campus believe that it is critical to the long-term success of the campus that Revere St be in alignment North and South of Montview. In order to address this misalignment, FRA has shown the correct alignment on the recently submitted Bioscience 5 Plat; and is requesting that the Revere St right of way on the Bioscience 3 Plat be vacated.

The attached Exhibit A provides a summary of the modifications to Revere St.

Sincerely,

Matt Shannon
Senior Design Phase Manager
Mortenson
