Application Number: **DA-1786-03**
Case Numbers: **2005-7007-03, 2022-4017-00, 2022-3049-00**

Dear Mr. McCormack:

Thank you for your technical submission which we began to process on September 3, 2024. We have reviewed your plans and attached our comments along with this cover letter. The first section of our review highlights our major comments. The following sections contain more specific comments, including those received from other city departments and community members.

Since only a handful of minor issues remain, you will not need to make another full submission. Please address the remaining comments and then send a PDF copy of the updated site plan and plat directly to your case manager for verification. Once you are given the go-ahead, you may submit your final mylars. Please see the attached mylar checklists and send them in along with your final signed mylar sets. Please also note that site plan mylars are recorded physically while plat mylars are recorded electronically.

If you have made any other changes to your documents other than those requested, you will need to make a technical resubmission and include a cover letter specifically listing each new item. The Planning Department reserves the right to reject any resubmissions that fail to address these items.

As always, if you have any comments or concerns, please let me know. I may be reached at (303) 739-7132 or egates@auroragov.org.

Sincerely,

Erik Gates

7A. (Advisory Comment) Send in the updated Title Commitment to be dated within 30 calendar days of the plat approval date (This Commitment should be submitted at the time of your final submittal of the electronic Plat for recording.) per COA 2024 Subdivision Plat Checklist Item 19.b.

7B. (Advisory Comment) Send in the Certificate of Taxes Due show they are paid in full up to and through the plat approval date of recording. Obtained from the County Treasurer's office (This Certificate of Taxes should be submitted no later than your second submittal of the plat.) per COA 2024 Subdivision Plat Checklist Item #19.a.

7C. (Advisory Comment) Be advised - sometimes the margins or scale factor may not match the County or City standards as stated in the Subdivision Plat Checklist. If any of these factors are misaligned or scale does not match the drawing information, then this may cause the plat to be sent back and corrected and thus adding time to your submittal. And in turn, you may need to update the Title Commitment to bring it within the 30-day time limit. **Please check these items before sending the plat in for recording.**
